

Libya after that country was linked to a terrorist bombing of a West Berlin discotheque, which killed 1 American and injured 78 people. Following this tour, he was assigned as the Deputy Director, Warfare Systems Engineering in the Space and Naval Warfare Systems Command.

In 1988, Vice Admiral Nanos reported to Strategic Systems Programs, serving consecutively as Head of the Navigation Branch, head of the Missile Branch, and Director of the Technical Division. In June 1994, he assumed duties as Director, Strategic Systems Programs, responsible for all aspects of the Navy's Fleet Ballistic Missile Weapon Systems.

In May 1998, Vice Admiral Nanos assumed his rank and duties as Commander, Naval Sea Systems Command, the Navy's largest acquisition organization. Throughout the past four years, he has been responsible for the design, engineering, procurement, integration, construction, in-service support, and maintenance of the Navy's ships, shipboard weapons, and combat systems.

Vice Admiral Nanos' service education includes U.S. Naval Destroyer School at Newport, Rhode Island; Engineering Duty Officer basic and mid-career courses; the Senior Officer Ship Materiel Readiness Course at Idaho Falls, Idaho; and the Program Management Course at the Defense Systems Management College, Fort Belvoir, Virginia. His specialty as an Engineering Duty Officer is ordnance and weapons systems acquisition.

Vice Admiral Nanos successfully led the Command through a brilliant transformation of NAVSEA'S business practices in executing complex acquisition and Fleet maintenance and modernization responsibilities. He expertly managed the resizing, recapitalizing, and realignment of the personnel and technical resources devoted to designing, building, repairing, and modernizing ships and their weapons systems. Displaying bold vision, innovation, and superb leadership, he instituted far-reaching quality initiatives that forged a highly focused, reenergized workforce. These have transformed the Command into a unified corporation that provides world-class technical, acquisition, and life-cycle support leadership to America's Navy. His contributions have had a direct and lasting impact on the overall readiness, effectiveness, and survivability of the United States Armed Forces.

Vice Admiral Nanos' superb leadership, exceptional integrity, engineering expertise, and tireless devotion to duty reflect great credit upon him and are in keeping with the highest traditions of the United States Naval Service. He has done a superb job in leading the Naval Sea Systems Command to fulfill its mission: Keeping America's Navy #1 in the World.

Although Vice Admiral Nanos has worked diligently to increase the efficiency and effectiveness of naval and marine shipbuilding capabilities

throughout the United States, he has often shown his dedication to and respect for the men and women of the Portsmouth Naval Shipyard team. He recently visited the Shipyard to personally congratulate and thank the Shipyard team for their record-setting work on two submarines: A record-setting depot maintenance period on USS *Miami*, followed by a record-setting engineering refueling overhaul on USS *City of Corpus Christi*. Thanks in part to his vision, the Shipyard retains its important military-industrial capabilities and continues to provide critical jobs for the region.

Vice Admiral Nanos' innovation has ensured the success of the Naval Sea Systems Command and the United States Navy's ships well into the 21st Century. He is an individual of uncommon character and his professionalism will be sincerely missed. I am proud, Mr. President, to thank him for his honorable service in the United States Navy, and to wish him fair winds and following seas as he closes his distinguished military career.

I suspect Vice Admiral Nanos will continue his adventures, and will bring much credit to his name, as well as our government and our country. He is a true American hero, and his direct contributions to our military will long be remembered with heartfelt gratitude.●

A TRIBUTE TO ALONZO FRANKLIN HERNDON

● Mr. CLELAND. Mr. President, shortly after the turn of the 20th century, Alonzo Franklin Herndon, a former slave, founded the Atlanta Mutual Insurance Association, which would later become the Atlanta Life Insurance Company. Today, Atlanta Life holds assets of over \$200 million, operates in 17 states, and stands as one of the largest African-American owned and operated financial institutions in the Nation.

Born on a farm near Social Circle, GA, in 1858, Herndon's beginnings were anything but auspicious. He spent his early life in field labor and sharecropping. However, he ultimately learned the barbering trade and flourished. By the turn of the century, he owned and operated the world renowned Crystal Palace barbershop on Peachtree Street in downtown Atlanta. By the time he founded the Atlanta Mutual Insurance Association, Alonzo Herndon was one of the wealthiest African-Americans in the Nation.

Alonzo Herndon's vision for his company transcended conventional corporate thinking. Mr. Herndon was not only worried about the bottom line, but about the health and livelihood of African-Americans throughout the Atlanta area. The Atlanta Mutual Insurance Association was formed after Mr. Herndon purchased a small benevolent association for \$140, and acquired and reorganized two other companies in September of 1905. By providing sick and death benefits to African-Ameri-

cans for affordable weekly assessments of 5 to 25 cents, the Atlanta Life Insurance Company defined corporate responsibility to the community.

Today, we honor the Atlanta Life Insurance Company on the occasion of their founder's day birthday celebration. Specifically, we join Atlanta Life in honoring the barber profession, without which Alonzo Herndon would not have been able to create the Atlanta Life Insurance Company. Moreover, we look forward to the 2005 Founder's Celebration commemorating the 100th anniversary of Atlanta Life's founding. In an age where corporate malfeasance is too often in the news, it gives me great pride to celebrate a company that has succeeded financially without compromising its values. I wish the Atlanta Life Insurance Company many more years of success.●

REPORT OF THE CONTINUATION OF THE NATIONAL EMERGENCY WITH RESPECT TO THE RISK OF NUCLEAR PROLIFERATION CREATED BY THE ACCUMULATION OF WEAPONS-USABLE FISSILE MATERIAL IN THE TERRITORY OF THE RUSSIAN FEDERATION BEYOND JUNE 21, 2002—PM 93

The PRESIDING OFFICER laid before the Senate the following message from the President of the United States, together with an accompanying report; which was referred to the Committee on Banking, Housing, and Urban Affairs:

To the Congress of the United States:

Section 202(d) of the National Emergencies Act (50 U.S.C. 1622(d)) provides for the automatic termination of a national emergency unless, prior to the anniversary date of its declaration, the President publishes in the *Federal Register* and transmits to the Congress a notice stating that the emergency is to continue in effect beyond the anniversary date. In accordance with this provision, I have sent the enclosed notice, stating that the emergency declared with respect to the accumulation of a large volume of weapons-usable fissile material in the territory of the Russian Federation is to continue beyond June 21, 2002, to the *Federal Register* for publication. The most recent notice continuing this emergency was published in the *Federal Register* on June 14, 2001, (66 FR 32207).

It remains a major national security goal of the United States to ensure that fissile material removed from Russian nuclear weapons pursuant to various arms control and disarmament agreements is dedicated to peaceful uses, subject to transparency measures, and protected from diversion to activities of proliferation concern. The accumulation of a large volume of weapons-usable fissile material in the territory of the Russian Federation continues to pose an unusual and extraordinary threat to the national security and foreign policy of the United
